"We are delighted to be hosting S.H.E.D at the National Justice Museum. Our mission is to support our visitors to be active citizens, by engaging with justice and the law. The project's aims of being a social space, for the public to explore real issues together in a playful and creative way, resonate with our own."

The activity we are hosting in S.H.E.D will inform the development of an exhibition on young people and protest, which will open here in June 2021".

"It is fantastic to be visiting the National Justice Museum this August bank holiday weekend."

Working in partnership with the National Justice Museum we have created a unique space for conversations with young people about justice and the law and protest. These conversations are both urgent and necessary; for the future care of our planet and for society."

S.H.E.D is a conversation starter – shedding preconceptions about people and place.
